**DETAILED ACTION**

***Election/Restrictions***

Applicant's election without traverse of Group I, claims 1-38, in the reply filed on 10/23/07 is acknowledged.

Applicant's election with traverse of silicon in the reply filed on 1/17/08 is also acknowledged. This traversal is found persuasive and the species election requirement is withdrawn.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3-16, 18-28, and 37-38 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Matsuki et al. US 6,503,570.

Regarding claim 1, Matsuki '570 discloses a method of making silanes comprising reacting metal hydride with silica (paragraph bridging columns 5-6) and washing in solvent, which is distilled off (see Examples).

Regarding claims 3, 5-14, 26-28, and 37-38, Matsuki discloses washing in solvent, which is distilled off (see Examples).

Regarding claims 4, 15-16, 18-25, Matsuki discloses lithium aluminum hydride (column 5, bottom).

***Allowable Subject Matter***

Claims 2, 17, and 29-36 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: The prior art does not disclose or suggest the Group IVA compound comprising a halogen and having the claimed formula in the method of making a hydrogenated Group IVA compound of the instant claim 2.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
